No	Description	Qty	Amount
1	Atomic Absorption Spectrometer (AAS)		
	Model : SavantAA	1	661.360.000
	GBC Scientific Equipment, Pty.Ltd		
	Specification :		
	<u>Optical spectrometer :</u>		
	1. Double Beam		
	2. <i>Assymetric modulation 2:1 of sample and references beam</i>		
	<u>Monochromator</u>		
	1. Ebert-Fastie design with 333 mm(focal length), self-calibrating		
	2. Automatic wavelength selection (175-900 nm) and peaking.		
	3. Band width: 0.1-2.0 nm (0.1 nm increment) Continuously adjustable		
	<u>Spectral band width :</u> Continously Adjustable 0.1 - 2.0 nm (0.1 nm increments)		
	Eight-lamp turret with automatic lamp selection.		
	<u>Background Correction :</u>		
	Hyper-pulse Background correction 200 measurements per second		
	Corection range: 175-425 nm, Correction up to 2.5 Absorbance		
	Progammable Flame Control		
	<u>Electrical Requirements</u>		
	110-240V AC, 50/60 Hz, 600 VA		
	HC Lamp and Standard Sollution	8	
	Local Compliment Accessories included :		
	Computer and Printer	1	
	Fume extraction system	1	
	TUBING 1/4 INCH 10 M WITH CONNECTOR KIT	1
